"About a year ago, I ordered the ACT prep software from your company through a generous sponsorship by the NFL players. It is with great appreciation that I send this good news report of my daughter, Erin's success! As a result of her practice with your software, Erin earned a composite score of 33 on the ACT! She is considering Bowling Green State University, with an undecided major in the Honors Program, but has been contacted by several others! As a military member for nearly 30 years, I cannot thank you enough for this wonderful donation and hope you will continue to make this remarkable tool available to other service members and their families."
